More than 1 in 5 older Americans live in rural areas, many concentrated in states where more than half of their older populations are in rural areas. A new report, *The Older Population in Rural America: 2012-2016*, shows that 17.5% of the rural population was 65 years and older compared to 13.8% in urban areas.

### **Older Population in Rural America - Census.gov**

Older people everywhere want to maintain their independence and age in place, but it can be especially difficult in rural areas. GIA started Creating a Sustainable Network for the Rural Aging Movement , a three-year program to improve the experience of rural aging by connecting and supporting key players, sharing knowledge, and expanding the resources available to rural older adults.
