Selective colleges often require four years of math, and some schools may also require the completion of particular math classes like algebra 2, geometry, or pre-calculus. For students planning on majoring in humanities, the social sciences, or a similar field, the math classes you took in high school will not be as important to colleges because they'll be looking more at the classes that ...

Math Help for Section 2.1, Page 56. Variables and Algebraic Expressions An algebraic expression is defined as a collection of variables and constants combined by using addition, subtraction, multiplication, or division. Note that an algebraic expression can also include exponentiation because exponentiation is defined as repeated multiplication. For instance, the expression $x^2 - 4x + 5$...
