The EmpowerCTA ®+ Injector System represents the ultimate in contrast injector technology, meeting the needs of today's CT suites by facilitating high-quality CT imaging. Unique safety enhancements combined with a digital touch screen at the patient's side and voice prompts give EmpowerCTA + Injector System users increased process control and a more streamlined workflow.

EmpowerCTA®+ Injector System | Bracco Imaging
Automated contrast media injectors are used in cardiac imaging to help improve patient safety and enhance image quality. These devices can control contrast dosage, record the amount used, speed injections to keep up with faster computed tomography (CT) scanners, and warn clinicians of potential hazards, such as air embolisms or extravasations.
