The color of a porcelain veneer can be selected such that it makes dark teeth appear whiter. Veneers offer a conservative approach to changing a tooth's color and shape — veneers generally don't require the extensive shaping prior to the procedure that crowns do, yet offer a stronger, more aesthetic alternative.

## **What Are Dental Veneers? Here's What You Should Know**

Fig. 1 shows the reasons for the porcelain laminate veneers. Most patients had maxillary restorations (72.4%, n = 21); one patient had a mandibular veneer, and seven patients had veneers in both arches. With regard to the veneer design, three patients had a window design and the rest had an overlapped design.
