1999 Saab 9-5 Problems, Defects & Complaints

A 1999 Saab 9-5 shows an intermittent problem. Occasionally, the engine will "hiccup" but then continue to work properly. The garage could not find any problems, because no fault codes were stored. Since the hiccups occurred only occasionally and they would not affect using the car, the owner could live with it.

Saab 9-5 with intermittent hiccups | Automotive articles

There are two easy ways to turn off the amber check engineand !lights on the 9-5. Neither of these techniques will fix whatever caused the code in the first place. You will want to check out the codes in the "on board diagnostics" (OBD-II) and fix anything that is causing you trouble.

SAAB 9-5, How to Clear the Check Engine Light or "CEL"

The B205 & B235-based 9-5 models have suffered a high rate of engine failures due to engine oil sludge. [citation needed] This primarily affected the 1999–2003 models. Saab refined the engine's positive crankcase ventilation system (PCV) for the 2004 and later model years and required use of fully synthetic oil, virtually eliminating the problem.
